After reaching out to Bosch, they sent a technician who told me that my now 3-year underused dishwasher (there are only 2 in this household) would cost more to repair than to replace! It needs a new pump -- a \$99 part which Bosch said they would pay for -- but since it's out of warranty I was responsible for the labor.

After our built-in Bosch ran a cycle, the bottom of the dishwasher was still full of dirty, free-standing water. Here's how it's supposed to work: There is a drain pump in the dishwasher that pushes the water out through a hose which typically runs from the dishwasher to either the sink's garbage disposal or the air gap.
