Neolithic Europe is the period when Neolithic technology was present in Europe, roughly between 7000 BCE (the approximate time of the first farming societies in Greece) and c. 1700 BCE (the beginning of the Bronze Age in Scandinavia). The Neolithic overlaps the Mesolithic and Bronze Age periods in Europe as cultural changes moved from the southeast to northwest at about 1 km/year – this is ...

Colonialism is not easily defined. It is a practice or policy of control by one people or power over other people or areas, often by establishing colonies and generally with the aim of economic dominance. In the process of colonisation, colonisers may impose their religion, language, economics, and other cultural practices. The foreign administrators rule the territory in pursuit of their ...

Chronology - Chronology - Babylonian and Assyrian: The source from which the exploration of Mesopotamian chronology started is a text called Ptolemy's Canon. This king list covers a period of about 1,000 years, beginning with the kings of Babylon after the accession of Nabonassar in 747 bc. The text itself belongs to the period of the Roman Empire and was written by a Greek astronomer ...
